## 6. Activate your plugin:

The screenshot shows the WordPress admin interface. On the left sidebar, the 'Plugins' menu is highlighted, and the 'Installed Plugins' sub-menu is selected and highlighted with a red box. The main content area displays the 'Plugins' page with a message 'Plugin deactivated.' at the top. Below this, there are filters for 'All (3)', 'Inactive (3)', 'Recently Active (1)', and 'Auto-updates Disabled (3)'. A search bar for 'Search installed plugins...' is also present. A table lists the installed plugins:

<input type="checkbox"/>	Plugin	Description	Automatic Updates
<input type="checkbox"/>	Akismet Anti-Spam: Spam Protection <a href="#">Activate</a>   <a href="#">Delete</a>	Used by millions, Akismet is quite possibly the best way in the world to protect your blog from spam. Akismet anti spam keeps your site protected even while you sleep. To get started: activate the Akismet plugin and then go to your Akismet Settings page to set up your API key. Version 5.1   By Automattic - Anti Spam Team   <a href="#">View details</a>	<a href="#">Enable auto-updates</a>
<input type="checkbox"/>	Hello Dolly <a href="#">Activate</a>   <a href="#">Delete</a>	This is not just a plugin, it symbolizes the hope and enthusiasm of an entire generation summed up in two words sung most famously by Louis Armstrong: Hello, Dolly. When activated you will randomly see a lyric from Hello, Dolly in the upper right of your admin screen on every page. Version 1.7.2   By Matt Mullenweg   <a href="#">View details</a>	<a href="#">Enable auto-updates</a>
<input type="checkbox"/>	WIS API <a href="#">Activate</a>   <a href="#">Delete</a>	Adds a custom widget to display data from WIS's webservice. Version 1.0   By Paulo Lopes	
<input type="checkbox"/>	Plugin	Description	Automatic Updates

At the bottom of the table, there are 'Bulk actions' and 'Apply' buttons, and a note '3 items'.

**1. Access the installed plugins menu**

**2. Activate your plugin**

7. Add the new widget to the area that you want on the website

The screenshot shows the WordPress admin interface. On the left is a dark sidebar menu with the following items: Dashboard, Posts, Media, Pages, Comments, Appearance (highlighted in blue), Themes, Customize, Widgets (highlighted with a red box), Menus, Background, Theme File Editor, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Widgets' and features a blue '+ button' highlighted with a red box. Below this, a red annotation reads '2. Click on + button close to the page Title'. The main area contains three widget areas: 'Footer #1' (expanded), 'Footer #2' (collapsed), and 'Inactive widgets' (collapsed). The 'Footer #1' area contains a 'WIS API Widget' with a 'Title:' label and an empty text input field. Below the widget is a large yellow box with a '+' sign. The top of the page shows the WordPress logo, 'WIS API TEST', a notification icon with '0', a '+ New' button, and the user 'Howdy, admin'.

1. Access the Widgets link on the Appearance menu

2. Click on + button close to the page Title

## 8. Configure the widget

The screenshot shows the WordPress dashboard's 'Widgets' page. The left sidebar contains navigation links: Dashboard, Posts, Media, Pages, Comments, Appearance (highlighted), Themes, Customize, Widgets, Menus, Background, Theme File Editor, Plugins, Users, Tools, Settings, and Collapse menu. The top header shows 'WIS API TEST', '0' comments, a '+ New' button, and the user 'Howdy, admin'. The main content area is titled 'Widgets' and includes a '+', a back arrow, a forward arrow, and a menu icon. On the right, there is an 'Update' button and a settings gear icon. The widget area is divided into three sections: 'Footer #1', 'Footer #2', and 'Inactive widgets'. The 'Footer #1' section contains a 'WIS API Widget' configuration form, which is highlighted with a red rectangular box. This form has a 'Title:' label and a text input field. Below the form is a large yellow button with a '+' sign. The 'Footer #2' and 'Inactive widgets' sections are currently empty.
